7 p.m. Presentation by Wenonah Hauter, author of **Foodopoly** and executive director of Food and Water Watch. Free.

Barnes & Noble will provide books for sale and signing by Wenonah.

Foodopoly presents the shocking account of how agricultural policy has been hijacked by lobbyists, driving out independent farmers and food processors in favor of large Ag corporations. The impacts of these developments ripple far and wide, from economic stagnation in rural communities at home, to famines in poor countries overseas. In the end, Hauter illustrates how solving this crisis will require a complete structural shift, a grassroots movement to reshape our food system from seed to table—a change that is about politics, not personal choice.
