

Statehood for People of DC

Sign the Petition to Congress

The people of Washington, D.C. deserve the same rights as Americans living in the 50 states. They want full voting representation in the U.S. Congress and an end to Congressional interference in their local government--and we Unitarian Universalists support that!

To resolve this, D.C. should become the 51st state, formed from the residential and commercial areas of the District of Columbia and preserving a smaller federal district as the nation's capital.

Sign the petition to Congress: Tell them you support DC Statehood because we support universal voting rights!

We Unitarian Universalists are committed to helping D.C. residents end the injustice of taxation without representation as a matter of democratic principle.

Volunteer

DC Statehood

- In 2019, we declared support for "universal voting rights."
- In 2021, we said D.C. was a matter of voter suppression and racial injustice.
- In 2024, the Reeb Voting Rights Project, All Souls Church, Unitarian in Washington D.C., has renewed a call for assistance from UUs nationwide.
- For more information, see the petition landing page.

Take action

Let's stand together and make our voices heard. Sign the petition, support D.C. statehood, join the advocacy, and help us achieve universal voting rights.
