**Vote No
on Save Act!!**

The Safeguard American Voter Eligibility (SAVE) Act would make it harder for millions of eligible Americans to register and vote by requiring strict proof of citizenship, such as a passport or birth certificate, and other documents. Many Americans lack these documents, can not easily or quickly obtain them, and cannot afford the fees for processing such documentation.

Our American democracy works best when all people can have influence and share decision-making power. Requiring every voter to provide a passport or birth certificate in person to register or update their voter information would impact all of us. Still, it would significantly threaten the ability to vote for working-class Americans, older voters, people who've changed their last name, and those who've lost essential documents due to natural disasters. Voting is how we use the power of our communities to ensure we can all benefit from our democracy.

We will continue to urge Congress to pass federal voting rights legislation and ensure our democracy works for all. Although we may not be able to do that in the 119th Congress, we won't give up the persuasion campaign.
