Stop violating sensitive locations and protected areas

***Schools, hospitals, protests, and houses of worship
should remain off-limits!***

As a matter of moral principle, this is very simple: ICE should not be allowed in our schools, hospitals, public demonstrations—and never at our houses of worship!

The new administration has selected immigration for its assault on the Constitution, our norms, and our liberties. Many advocates, activists, and clergy fear they are starting with immigrants and will conclude by curtailing the rights and freedoms of everyone.

On January 20, 2025, the new administration rescinded a Biden administration policy protecting certain areas—such as churches, schools, public demonstrations, and hospitals—from immigration enforcement. The new administration replaced it with an unreleased directive, giving Immigration and Customs Enforcement (ICE) agents unfettered access to and enforcement power in these spaces.
